WORK EXPERIENCE

Intern - Front-End Development
Mobikraft Tech Pvt. Ltd.

01/2024 - 05/2024
Learned and worked with HTML, CSS, JavaScript, React JS, Node.js, and Express to build web applications.

Tasks

- Assisted with front-end and back-end development tasks, including designing user interfaces and developing server-side functionalities.
- Collaborated with the team to develop responsive web pages and enhance performance.
- Implemented RESTful APIs to facilitate seamless communication between the front end and back end.
- Participated in team discussions and code reviews to improve development practices and learn industry best practices.

PERSONAL PROJECTS

React Contact Form with Firebase Integration
- Created a responsive contact form using React, allowing users to submit personal information such as Name, Phone, Email, Address, and a Message. Managed form state with React's useState hook and handled data submission to Firebase Realtime Database.

Dark/Light Mode Toggle with Text Features in React
- Built a React app with a dark and light mode toggle, text transformation features, and navigation using React Router. Utilized useState for managing UI states, including dark mode, alert messages, and text inputs.

E-commerce Navigation & Product Catalog Application
- Built a dynamic multi-step navigation menu and modular product catalog API for an e-commerce site using React.js. Implemented features like real-time search, filtering, and intuitive navigation. Optimized performance for quick model searches by brand or category, ensuring scalability and easy future integration.
